The Trust

The Amberwave Invest USA JSG Fund is a series of Northern Lights Fund Trust II, a Delaware statutory trust (the "Trust") organized on August 26, 2010.

The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the "Board" or "Trustees"). The Fund may issue an unlimited number of shares of beneficial interest. All shares of the Fund have equal rights and privileges. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate equally with other shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Fund are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share.

The Fund is a diversified series of the Trust. The Fund' investment objectives, restrictions and policies are more fully described here and in the Prospectus. The Board may add classes to and reclassify the shares of the Fund, start other series and offer shares of a new fund under the Trust at any time.

The Fund may issue an unlimited number of shares of beneficial interest ("Shares"). All Shares have equal rights and privileges. Each Share is entitled to one vote on all matters as to which Shares are entitled to vote. In addition, each Share is entitled to participate equally with other Shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights.

The shares of the Fund are principally listed and traded on the NYSE Arca, Inc. (the "Exchange"), as shown on the cover of this SAI. ETFs, such as the Fund, do not sell or redeem individual shares of the Fund. Instead, financial entities known as "Authorized Participants" (which are discussed in greater detail below) have contractual arrangements with the Fund or the Distributor to purchase and redeem Fund shares directly with the Fund in large blocks of shares known as "Creation Units." An Authorized Participant that purchases a Creation Unit of Fund shares deposits with the Fund a "basket" of securities, cash and/or other assets identified by the Fund that day, and then receives the Creation Unit of Fund shares in return for those assets. The redemption process is the reverse of the purchase process: the Authorized Participant redeems a Creation Unit of Fund shares for a basket of securities, cash and/or other assets. The basket is generally representative of the Fund's portfolio, and together with

a cash balancing amount, it is equal to the NAV of the Fund shares comprising the Creation Unit. Pursuant to Rule 6c-11 of the 1940 Act, the Fund may utilize baskets that are not representative of the Fund's portfolio. Such "custom baskets" are discussed in the section entitled "Creation and Redemption of Creation Units."

Amberwave Partners Research and Management, LLC (the "Adviser") serves as the investment adviser and Vident Investment Advisory, LLC (the "Trading Sub-Adviser") serves as the trading sub-adviser to the Fund.

The Trust's Agreement and Declaration of Trust - General

Under the Trust's Agreement and Declaration of Trust, each Trustee will continue in office until the termination of the Trust or his/her earlier death, incapacity, resignation or removal. Shareholders can remove a Trustee to the extent provided by the Investment Company Act of 1940, as amended (the "1940 Act") and the rules and regulations promulgated thereunder. Vacancies may be filled by a majority of the remaining Trustees, except insofar as the 1940 Act may require the election by shareholders. As a result, normally no annual or regular meetings of shareholders will be held unless matters arise requiring a vote of shareholders under the Agreement and Declaration of Trust or the 1940 Act.

The Trust is not required to and does not intend to hold annual meetings of shareholders.

The Trust's Agreement and Declaration of Trust - Shareholder Derivative Actions

A shareholder may bring derivative action on behalf of the Trust only if the shareholder or shareholders first make a pre-suit demand upon the Trustees to bring the subject action unless an effort to cause the Trustees to bring such action is excused. A demand on the Trustees shall only be excused if a majority of the Board of Trustees, or a majority of any committee established by the Board to consider the merits of such action, has a personal financial interest in the action at issue.

Exchange Listing and Trading

Shares of the Fund are approved for listing and trading on the Exchange, subject to notice of issuance, and will be available for purchase and sale through a broker-dealer at market price on each day that the Exchange is open for business. The market price of the Fund's shares may trade below, at, or above the most recently calculated NAV per share of the Fund. As is the case of other publicly traded securities, your purchase or sale of the Fund's shares in the secondary market will be subject to brokerage commissions which will be based on negotiated commission rates at customary levels.

There can be no assurance that the requirements of the Exchange necessary to maintain the listing of shares of the Fund will continue to be met. The Exchange maintains certain listing standards and requires listed companies like the Fund to continue to comply with such standards while their shares are available for trading on the Exchange. The Exchange may, but is not required to, remove the shares of the Fund from listing if: (1) following the initial twelve-month period beginning upon the commencement of trading of the shares, there are fewer than 50 beneficial holders of the shares; (2) the Fund is no longer eligible to operate in reliance on Rule 6c-11 under the 1940 Act; (3) the Fund fails to meet certain continued listing standards of the Exchange; or (4) such other event shall occur or condition exists that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. In addition, the Exchange will remove the shares from listing and trading upon termination of the Trust or the Fund.

The base and trading currency of the Fund is the U.S. dollar. The base currency is the currency in which the Fund's NAV is calculated and the trading currency is the currency in which shares of the Fund are listed and traded on the Exchange.

The Trust reserves the right to adjust the share price of the Fund in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

Investment Policies, Strategies and Associated Risks

The investment objective of the Fund is to seek to provide long-term capital appreciation. The investment objective of the Fund and the descriptions of the Fund's principal investment strategies are set forth under "Investment Strategies, Related Risks and Disclosure of Portfolio Holdings" in the Prospectus. The Fund's investment objective is not fundamental and may be changed without the approval of a majority of the outstanding voting securities of the Trust, although the Fund will provide shareholders with notice of any change to the Fund's investment objectives at least 60 days prior to such change.

The following pages contain more detailed information about the types of instruments in which the Fund may invest, strategies the Adviser may employ in pursuit of the Fund's investment objective and a summary of related risks.

Borrowing

The Fund may borrow money for investment purposes, which is a form of leveraging. Leveraging investments, by purchasing securities with borrowed money, is a speculative technique that increases investment risk while increasing investment opportunity. Leverage will magnify changes in the Fund's net asset value and on the Fund's investments. Although the principal of such borrowings will be fixed, the Fund's assets may change in value during the time the borrowing is outstanding. Leverage also creates interest expenses for the Fund. To the extent the income derived from securities purchased with borrowed Fund exceeds the interest the Fund will have to pay, the Fund's net income will be greater than it would be if leverage were not used. Conversely, if the income from the assets obtained with borrowed Fund is not sufficient to cover the cost of leveraging, the net income of the Fund will be less than it would be if leverage were not used, and therefore the amount available for distribution to shareholders as dividends will be reduced. The use of derivatives in connection with leverage creates the potential for significant loss.

The Fund may also borrow Fund to meet redemptions or for other emergency purposes. Such borrowings may be on a secured or unsecured basis at fixed or variable rates of interest. The 1940 Act requires the Fund to maintain continuous asset coverage of not less than 300% with respect to all borrowings. If such asset coverage should decline to less than 300% due to market fluctuations or other reasons, the Fund may be required to dispose of some of its portfolio holdings within three days in order to reduce the Fund's debt and restore the 300% asset coverage, even though it may be disadvantageous from an investment standpoint to dispose of assets at that time.

The Fund also may be required to maintain minimum average balances in connection with such borrowing or to pay a commitment or other fee to maintain a line of credit. Either of these requirements would increase the cost of borrowing over the stated interest rate.

Borrowing by the Fund creates an opportunity for increased net income, but at the same time, creates special risk considerations. For example, leveraging may exaggerate the effect on net asset value of any increase or decrease in the market value of the Fund's portfolio.

Equity Securities

Equity securities include common stocks, preferred stocks and securities convertible into common stocks, such as convertible bonds, warrants, rights and options. The value of equity securities varies in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and general market and economic conditions. Equity securities

fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be significant.

Common Stock

Common stock represents an equity (ownership) interest in a company, and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's stock price.

Investment Companies

The Fund may, from time to time, invest in securities of other investment companies, including, without limitation, money market funds.

Generally, under the 1940 Act, the Fund may not acquire shares of another investment company if, immediately after such acquisition, (i) the Fund would hold more than 3% of the other investment company's total outstanding shares, (ii) the Fund's investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) more than 10% of the Fund's total assets would be invested in investment companies. Under certain conditions, the Fund may invest in registered and unregistered money market Fund in excess of these limitations.

The Fund expect to rely on Rule 12d1-1 under the 1940 Act when purchasing shares of a money market fund. Under Rule 12d1-1, the Fund may generally invest without limitation in money market Fund as long as the Fund pay no sales charge ("sales charge"), as defined in rule 2830(b)(8) of the Conduct Rules of the Financial Industry Regulatory Authority ("FINRA"), or service fee, as defined in rule 2830(b)(9) of the Conduct Rules of FINRA, charged in connection with the purchase, sale, or redemption of securities issued by the money market fund ("service fee"); or the Adviser waives its management fee in an amount necessary to offset any sales charge or service fee.

Investments in other investment companies subject the Fund to additional operating and management fees and expenses. For example, the Fund's investors will indirectly bear fees and expenses charged by underlying investment companies in which that Fund invests, in addition to that Fund's direct fees and expenses.

Additionally, investing in another investment company exposes the Fund to all the risks of that underlying fund.

Money Market Funds

The Fund may invest in underlying money market funds that either seek to maintain a stable \$1 NAV ("stable NAV money market Fund") or that have a share price that fluctuates ("variable NAV market Fund"). Although an underlying stable NAV money market fund seeks to maintain a stable \$1 NAV, it is possible for the Fund to lose money by investing in such a money market fund. Because the share price of an underlying variable NAV market fund will fluctuate, when the Fund sells the shares it owns they may be worth more or less than what the Fund originally paid for them. In addition, neither type of money market fund is designed to offer capital appreciation. Certain underlying money market funds may impose a fee upon the sale of shares or may temporarily suspend the ability to sell shares if such fund's liquidity falls below required minimums.

Real Estate Investment Trusts

The Fund may invest in securities of real estate investment trusts ("REITs"). REITs are publicly traded corporations or trusts that specialize in acquiring, holding and managing residential, commercial or industrial real estate. A REIT is not taxed at the entity level on income distributed to its shareholders or unitholders if it distributes to shareholders or unitholders at least 95% of its taxable income for each taxable year and complies with regulatory requirements relating to its organization, ownership, assets and income.

REITs generally can be classified as "Equity REITs", "Mortgage REITs" and "Hybrid REITs." An Equity REIT invests the majority of its assets directly in real property and derives its income primarily from rents and from capital gains on real estate appreciation, which are realized through property sales. A Mortgage REIT invests the majority of its assets in real estate mortgage loans and services its income primarily from interest payments. A Hybrid REIT combines the characteristics of an Equity REIT and a Mortgage REIT. Although the Fund can invest in all three kinds of REITs, its emphasis is expected to be on investments in Equity REITs.

Investments in the real estate industry involve particular risks. The real estate industry has been subject to substantial fluctuations and declines on a local, regional and national basis in the past and may continue to be in the future. Real property values and income from real property continue to be in the future. Real property values and income from real property may decline due to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, regulatory limitations on rents, changes in neighborhoods and in demographics, increases in market interest rates, or other factors. Factors such as these may adversely affect companies that own and operate real estate directly, companies that lend to such companies, and companies that service the real estate industry.

Investments in REITs also involve risks. Equity REITs will be affected by changes in the values of and income from the properties they own, while Mortgage REITs may be affected by the credit quality of the mortgage loans they hold. In addition, REITs are dependent on specialized management skills and on their ability to generate cash flow for operating purposes and to make distributions to shareholders or unitholders. REITs may have limited diversification and are subject to risks associated with obtaining financing for real property, as well as to the risk of self-liquidation. REITs also can be adversely affected by their failure to qualify for tax-free pass-through treatment of their income under the Internal Revenue Code of 1986, as amended, or their failure to maintain an exemption from registration under the 1940 Act. By investing in REITs indirectly through the Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

Securities Lending

The Fund may lend securities from its portfolio to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The value of the loaned securities may not exceed one-third of the Fund's total net assets and loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. The Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund may pay reasonable administrative and custodial fees in connection with loans of portfolio securities and may pay a portion of the interest or fee earned thereon to the borrower or a placing broker.

In determining whether or not to lend a security to a particular broker, dealer or financial institution, the Adviser considers all relevant facts and circumstances, including the size, creditworthiness and reputation of the broker, dealer or financial institution. Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities, however, such payments of accrued income will not constitute "qualified dividend" income and will be taxable as ordinary income. For loaned securities, the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral. The Fund will be responsible for the risks associated with the investment of the cash

collateral, including the risk that the Fund may lose money on the investment or may fail to earn sufficient income to meet its obligations to the borrower.

Temporary and Cash Investments

Under normal market conditions, the Fund will stay fully invested according to its principal investment strategies as noted above. The Fund, however, may temporarily depart from its principal investment strategies by making short-term investments in cash, cash equivalents, and high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic or political conditions, or other events (including, for example, terrorism, war, natural disasters and disease/virus epidemics). This may result in the Fund not achieving its investment objectives during that period.

For longer periods of time, the Fund may hold a substantial cash position. If the market advances during periods when the Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested. To the extent that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

Additional Risks

Recent Market Events. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. The value of a security or other instrument may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other instrument, or factors that affect a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector or asset class. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates generally do not have the same impact on all types of securities and instruments.

Stresses associated with the 2008 financial crisis in the United States and global economies peaked approximately a decade ago, but periods of unusually high volatility in the financial markets and restrictive credit conditions, sometimes limited to a particular sector or a geography, continue to recur. Some countries, including the United States, have adopted and/or are considering the adoption of different economic policies. The exact shape of these policies is still being considered, but the equity and debt markets may react strongly to expectations of change, which could increase volatility, especially if the market's expectations are not borne out. A change in economic policies, including those that affect international trade, could affect the economies of many nations in ways that cannot necessarily be foreseen at the present

time. In addition, geopolitical and other risks, including environmental and public health, may add to instability in world economies and markets generally. Economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic, political and/or financial difficulties, the value and liquidity of the Fund's investments may be negatively affected by such events.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in 2019 and has now been detected globally. On March 11, 2020, the World Health Organization announced that it had made the assessment that COVID-19 can be characterized as a pandemic. COVID-19 has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, business and school closings, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty. The value of the Fund and the securities in which the Fund invest may be adversely affected by impacts caused by COVID-19 and other epidemics and pandemics that may arise in the future.

Fundamental Investment Limitations

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable vote of the holders of a "majority of the outstanding voting securities of the Fund," as defined in the 1940 Act. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. Issue senior securities, except as otherwise permitted under the 1940 Act, and the rules and regulations promulgated thereunder, which allow a borrowing

from a bank where the Fund maintains an asset coverage ratio of at least 300% while the borrowing is outstanding; or

2. Borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions; or
3. Purchase securities on margin, participate on a joint or joint and several basis in any securities trading account, or underwrite securities. This limitation does not preclude the Fund from obtaining such short-term credit as may be necessary for the clearance of purchases and sales of its portfolio securities, and except to the extent that the Fund may be deemed an underwriter under the Securities Act, by virtue of disposing of portfolio securities; or
4. Purchase or sell real estate or interests in real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including REITs); or
5. Invest 25% or more of the market value of its assets in the securities of companies engaged in any one industry (does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.); or
6. Purchase or sell commodities (unless acquired as a result of ownership of securities or other investments) or commodity futures contracts, except that the Fund may purchase and sell futures contracts and options to the full extent permitted under the 1940 Act, sell foreign currency contracts in accordance with any rules of the Commodity Futures Trading Commission, invest in securities or other instruments backed by commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities; or
7. Make loans to others, except that the Fund may, in accordance with its investment objective and policies, (i) lend portfolio securities, (ii) purchase and hold debt securities or other debt instruments, including but not limited to loan participations and sub-participations, assignments, and structured securities, (iii) make loans secured by mortgages on real property, (iv) enter into repurchase agreements, (v) enter into transactions where each loan is represented by a note

executed by the borrower, and (vi) make time deposits with financial institutions and invest in instruments issued by financial institutions. For purposes of this limitation, the term “loans” shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities; or

8. With respect to 75% of its total assets, invest 5% or more of its total assets in securities of a single issuer or hold more than 10% of the voting securities of such issuer (does not apply to investment in the securities of the U.S. government, its agencies or instrumentalities, or other investment companies). As a matter of operating policy, the Fund will not consider repurchase agreements to be subject to the above-stated 5% limitation if all of the collateral underlying the repurchase agreements are U.S. government securities and such repurchase agreements are fully collateralized.

The following lists the non-fundamental investment restrictions applicable to the Fund. These restrictions can be changed by the Board of Trustees, but the change will only be effective after notice is given to shareholders of the Fund.

The Fund may not:

1. Invest more than 15% or more of the value of its net assets, computed at the time of investment, in illiquid securities. Illiquid securities means any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment, as determined pursuant to the provisions of paragraph (b)(1)(ii) of Rule 22e-4; or
2. Invest in other investment companies advised by the same investment adviser as the Fund or in investment companies advised by affiliates of such adviser.

Except with respect to borrowing and illiquid securities, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation.

Management of the Fund

Board of Trustees

The management and affairs of the Fund are supervised by the Board of Trustees. The Board of Trustees consists of five individuals, four (4) of whom are not “interested persons” (as defined under the 1940 Act) of the Trust and the Adviser (“Independent Trustees”). The Trustees are fiduciaries for the Fund’s shareholders and are governed

by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Fund and appoints the officers who conduct the daily business of the Fund.

Board Leadership Structure

The Trust is led by Mr. Brian Nielsen, who has served as the Chairman of the Board since 2011. Mr. Nielsen is an interested person by virtue of his prior affiliation with Northern Lights Distributors, LLC (the Fund's Distributor). The Board of Trustees is comprised of Mr. Nielsen and four (4) Independent Trustees. Under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the Trust's Agreement and Declaration of Trust and By-Laws, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) setting the agendas for board meetings and (d) ensuring board members are provided necessary materials in advance of each board meeting. The Trust believes that (i) its Chairman, (ii) Keith Rhoades, the independent chair of the Audit Committee, and, (iii) as an entity, the full Board of Trustees, provide effective leadership that is in the best interests of the Trust, each of its Funds and each shareholder. The Independent Trustees have selected Anthony Lewis as the Lead Independent Trustee.

In accordance with the fund governance standards prescribed by the SEC under the 1940 Act, the Independent Trustees on the Nominating Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board of Trustees because of his experience, qualifications, attributes and/or skills. The Board of Trustees reviews its leadership structure regularly on at least an annual basis. The Board of Trustees believes that the structure described above facilitates the orderly and efficient flow of information to the Trustees from the officers of the Trust, the advisers of the Fund that comprise the Trust and other service providers, and facilitates the effective evaluation of the risks and other issues, including conflicts of interest, that may impact the Trust as a whole as well as the Fund individually. The Board of Trustees believes that the orderly and efficient flow of information and the ability of the Board of Trustees to bring each Trustee's experience and skills to bear in overseeing the Trust's operations is important given the characteristics and circumstances of the Trust, including: the unaffiliated nature of each investment adviser and the fund(s) managed by such adviser; the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; the committee structure of the Trust; and the independent arrangements of each of the Trust's series. For these reasons, the Board of Trustees believes that its leadership structure is appropriate.

Board Responsibilities

The Board of Trustees' role is one of oversight rather than day-to-day management of any of the Trust's series. The Trust's Audit Committee assists with this oversight function. The Board of Trustees' oversight extends to the Trust's risk management processes. Those processes are overseen by Trust officers, including the President, the Treasurer, the Secretary and Chief Compliance Officer ("CCO"), who regularly report to the Board of Trustees on a variety of matters at Board meetings.

Board Risk Oversight

The Board of Trustees is comprised of Mr. Nielsen and four (4) Independent Trustees with a standing independent Audit Committee with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its CCO at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the CCO is the primary recipient and communicator of such risk-related information and oversees the Trust's service providers' adherence to the Trust's policies and procedures.

Investment advisers managing the Trust's series report to the Trust's CCO and the Board of Trustees, on a regular and as-needed basis, on actual and possible risks affecting the Trust's series. These investment advisers report to the CCO and the Board of Trustees on various elements of risk, including investment, credit, liquidity, valuation, operational and compliance risks, as well as any overall business risks that could impact the Trust's series.

The Board of Trustees has appointed the CCO, who reports directly to the Board of Trustees and who participates in its regular meetings. In addition, the CCO conducts on-going and continuous compliance testing and presents an annual report to the Board of Trustees in accordance with the Trust's compliance policies and procedures. The CCO, together with the Trust's President, Treasurer and Secretary, regularly discusses risk issues affecting the Trust and its series during Board of Trustee meetings. The CCO also provides updates to the Board of Trustees on the operation of the Trust's compliance policies and procedures and on how these procedures are designed to mitigate risk. Finally, the CCO and/or other officers of the Trust report to the Board of Trustees in the event that any material risk issues arise in between Board meetings.

Trustee Qualifications

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills. Mr. Nielsen has over eighteen years of experience in the investment management and brokerage business including a focus in compliance, legal and regulatory oversight and possesses a strong understanding of the regulatory framework under which investment companies must operate. Since 2010, Thomas Sarkany has been the President of TTS Consultants, LLC, a financial services firm and from 1994 through 2010, held various roles at Value Line, Inc. (a publicly held company providing financial research, publications and money management services to retail and institutional investors), including Director of Marketing and Asset Management, Director of Index Licensing, and member of the Board of Directors. Anthony Lewis has been Chairman and CEO of The Lewis Group USA, an executive consulting firm, for the past ten years, and also serves as a Director, the Chairman of the Compensation Committee, and a Member of the Audit Committee of Torotel Inc., and also serves as a Trustee, the Chairman of the Valuation Committee, and a Member of the Audit Committee of the Wildermuth Endowment Fund, a registered closed-end fund operating as an interval fund. Keith Rhoades held various accounting roles at Union Pacific Railroad, including Senior Director of General Ledger/Financial Research. Randy Skalla has more than 20 years of investment management experience including serving as President of L5 Enterprises, Inc. since 2001 and from 2001 through 2017 Mr. Skalla was a member of the Orizon Investment Counsel Board. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Board of Trustees has established three standing board committees – the Audit Committee, the Compensation Committee and the Nominating Committee. All Independent Trustees are members of the Audit Committee, Compensation Committee and the Nominating Committee (“Standing Board Committees”). Inclusion of all Independent Trustees as members of all three of the Standing Board Committees allows all such Trustees to participate in the full range of the Board of Trustees’ oversight duties, including oversight of risk management processes.

Trustees and Officers

The Trustees and the officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years. The business address of each Trustee and Officer is 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246. All correspondence to the Trustees and Officers should be directed to c/o Ultimus Fund Solutions, LLC, P.O. Box 541150, Omaha, Nebraska 68154.

	Anti-Money Laundering Officer since May 2011	Services, LLC (since 2011).		
--	--	-----------------------------	--	--

* The term of office for each Trustee and Officer listed above will continue indefinitely.

** Brian Nielsen is an “interested person” of the Trust as that term is defined under the 1940 Act, because of his prior affiliation with Northern Lights Distributors, LLC (the Fund’ Distributor).

***As of December 31, 2021, the Trust was comprised of 22 active portfolios managed by unaffiliated investment advisers. The term “Fund Complex” applies only to the Fund and not to any other series of the Trust. The Fund does not hold itself out as related to any other series within the Trust for investment purposes, nor do they share the same investment adviser with any other series not included in the Fund Complex.

Board Committees

Audit Committee. The Board has an Audit Committee, which is comprised of the Independent Trustees. The Audit Committee reviews financial statements and other audit-related matters for the Fund. The Audit Committee also holds discussions with management and with the Fund’s independent auditor concerning the scope of the audit and the auditor’s independence and will meet at least four times annually.

Nominating Committee. The Board has a Nominating Committee, which is comprised of the Independent Trustees. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. The Nominating Committee generally will not consider shareholder nominees.

Compensation Committee. The Board has a Compensation Committee, which is comprised of the Independent Trustees. The role of the Compensation Committee is to oversee the evaluation of, and review and approve compensation for, the Independent Trustees. The Compensation Committee will generally meet annually.

Other Committees of the Trust

Valuation Committee. The Trust has a Valuation Committee. The Valuation Committee is responsible for the following: (1) monitoring the valuation of Fund securities and other investments; and (2) as required, when the Board of Trustees is not in session, determining the fair value of illiquid securities and other holdings after consideration of all relevant factors, which determinations are reported to the Board. The Valuation Committee shall, at all times, consist of no less than three members, including the Trust’s President and Treasurer, and may include such number of alternate members that are officers of the Trust’s Administrator or the investment adviser of a series of the Trust as the Board of Trustees or the members of the Valuation Committee may from

time to time designate. The Valuation Committee meets as necessary when a price for a portfolio security is not readily available.

Trustee Compensation

Each Trustee will receive a quarterly fee of \$21,250 (the “Trustee Fee”) to be paid at the beginning of each calendar quarter, allocated among each of the various portfolios comprising the Trust. Each Trustee will also receive reimbursement for any reasonable expenses incurred attending the regular quarterly meetings of the Trust. In addition to the Trustee Fee, the Audit Committee Chairman will receive an additional quarterly fee of \$4,000 and the Chairman of the Trust will receive an additional quarterly fee of \$5,250. For special in-person meetings, each Trustee will receive a \$2,500 special in-person meeting fee, as well as reimbursement for any reasonable expenses incurred attending the special in-person meeting, which fees will generally be paid by the Adviser requesting the special in-person meeting. None of the executive officers will receive compensation from the Trust.

The table below details the amount of compensation the Trustees are expected to receive from the Fund during the initial fiscal period ending May 31, 2022. Each Independent Trustee is expected to attend all quarterly meetings during the period. The Trust does not have a bonus, profit sharing, pension or retirement plan.

Name of Trustee	The Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund Complex*** Paid to Trustees
Thomas T. Sarkany	\$4,487	None	None	\$4,487
Anthony Lewis	\$4,487	None	None	\$4,487
Keith Rhoades*	\$5,315	None	None	\$5,315
Randal Skalla	\$4,487	None	None	\$4,487
Brian Nielsen**	\$5,608	None	None	\$5,608

*Mr. Rhoades also serves as chairman of the Audit Committee.

**Brian Nielsen is deemed to be an ‘interested person’ as defined in the 1940 Act as a result of his prior affiliation with Northern Lights Distributors, LLC (the Fund’ Distributor). Mr. Nielsen also serves as Chairman of the Trust.

*** There are currently multiple series comprising the Trust. The term “Fund Complex” refers only to the Fund, and not to any other series of the Trust. For the fiscal year ended May 31, 2021, aggregate Independent Trustees’ fees were \$462,000.

Management and Trustee Ownership

Because there were no shares outstanding as of the date of this SAI, the Trustees and officers, as a group, owned 0% of the Fund's outstanding shares.

As of December 31, 2021, the Trustees and officers, as a group, owned less than 1.00% of the Fund's outstanding shares and the Fund Complex's outstanding shares.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund.

The Depository Trust Company (“DTC”) or its nominee is the record owner of all outstanding shares and is recognized as the owner of all shares for all purposes. Investors owning shares are beneficial owners as shown on the records of DTC or its participants. As of the date of this SAI, the Fund had not commenced operations.

Investment Adviser

Amberwave Partners Research and Management, LLC, located at 14090 Southwest Freeway, Suite 300, Sugar Land, Texas, 77478, serves as the investment adviser to the Fund. The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). The Adviser is a wholly-owned by Amberwave Partners, LLC. Mr. Stephen Miran and Mr. Daniel Katz are the controlling shareholders of Amberwave Partners.

Pursuant to an Investment Advisory Agreement (the “Advisory Agreement”) with the Trust, on behalf of the Fund, the Adviser, subject to such policies as the Board of Trustees may determine, is ultimately responsible for investment decisions for the Fund. Pursuant to the terms of the Advisory Agreement, the Adviser provides the Fund with such investment advice and supervision as it deems necessary for the proper supervision of the Fund’ investments.

Under the Advisory Agreement, the Adviser is responsible for all expenses of the Fund, including the cost of transfer agency, custody, fund administration, legal, audit, trustees and other services, except costs of borrowing money (including interest expenses), distribution fees or expenses, brokerage expenses, commissions and other transaction expenses, taxes and governmental fees, and extraordinary expenses such as litigation and other expenses not incurred in the ordinary course of the Fund’s business.

After an initial period of two years, the Advisory Agreement will continue in effect with respect to the Fund from year to year only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund's outstanding voting securities and by a majority of the trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund upon 60 days' prior written notice when authorized either by a majority vote of the applicable Fund's shareholders or by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days' prior written notice, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser, under such agreement, shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

Under the Advisory Agreement, the Adviser, under the supervision of the Board, agrees (directly or through a sub-adviser) to invest the assets of the Fund in accordance with applicable law and the investment objectives, policies and restrictions set forth in the Fund's current Prospectus and Statement of Additional Information, and subject to such further limitations as the Trust may from time to time impose by written notice to the Adviser. The Adviser shall act as the investment adviser to the Fund and, as such shall (directly or through a sub-adviser) (i) obtain and evaluate such information relating to the economy, industries, business, securities markets and securities as it may deem necessary or useful in discharging its responsibilities here under, (ii) formulate a continuing program for the investment of the assets of the Fund in a manner consistent with its investment objective, policies and restrictions, and (iii) determine from time to time securities to be purchased, sold or retained by the Fund, and implement those decisions, including the selection of entities with or through which such purchases or sales are to be effected; provided, that the Adviser will place orders pursuant to its investment determinations either directly with the issuer or with a broker or dealer, and if with a broker or dealer, (a) will attempt to obtain the best price and execution of its orders, and (b) may nevertheless in its discretion purchase and sell portfolio securities from and to brokers who provide the Adviser with research, analysis, advice and similar services and pay such brokers in return a higher commission or spread than may be charged by other brokers.

The Adviser also provides the Fund with all necessary office facilities and personnel for servicing the Fund's investments, compensates all officers, Trustees and employees of the Trust who are officers, directors or employees of the Adviser, and all personnel of the Fund or the Adviser performing services relating to research, statistical and investment activities. The Advisory Agreement was approved by the Board of the Trust, including by a majority of the Independent Trustees, with respect to the Fund at a meeting held on October 18-19, 2021.

In addition, the Adviser, directly subject to the supervision of the Board of Trustees, provides the management services necessary for the operation of the Fund and such additional administrative services as reasonably requested by the Board of Trustees. These services include providing such office space, office equipment and office facilities as are adequate to fulfill the Adviser's obligations under the Advisory Agreement; assisting the Trust in supervising relations with custodians, transfer and pricing agents, accountants, underwriters and other persons dealing with the Fund; assisting in preparing all general shareholder communications and conducting shareholder relations; assuring the Fund's records and the registration of the Fund's shares under federal securities laws and making necessary filings under state securities laws; developing management and shareholder services for the Fund; and furnishing reports, evaluations and analyses on a variety of subjects to the Trustees. Pursuant to the Advisory Agreement, the Fund pays the Adviser a management fee based on the Fund's average daily net assets at the following annual rate:

Fund	Management Fee Annual Rate
Amberwave Invest USA JSG Fund	0.67%

The fee is computed daily and payable monthly.

Trading Sub-Adviser

Vident Investment Advisory, LLC (the "Trading Sub-Adviser"), located at 1125 Sanctuary Parkway, Suite 515, Alpharetta, Georgia 30009, serves as the trading sub-adviser to the Fund. The Trading Sub-Adviser is registered with the SEC as an investment adviser under the Advisers Act. The Trading Sub-Adviser is a wholly-owned subsidiary of Vident Financial, LLC. Vident Financial, LLC is a wholly-owned subsidiary of the Vident Investors' Oversight Trust. Vince L. Birley, Brian Shepler, and Mohammad Baki serve as the trustees of the Vident Investors' Oversight Trust.

The Adviser and the Trustees have chosen to engage the Trading Sub-Adviser in part because of the Trading Sub-Adviser's prior expertise in trading other accounts. Pursuant to a Sub-Advisory Agreement between the Adviser and the Trading Sub-Adviser (the "Sub-Advisory Agreement"), the Trading Sub-Adviser is responsible for trading portfolio securities on behalf of each Fund, including selecting broker-dealers to

execute purchase and sale transactions as instructed by the Adviser, subject to the supervision of the Adviser and the Board. For the services it provides to the Funds, the Trading Sub-Adviser is compensated by the Adviser from the management fees paid by each Fund to the Adviser and is not an additional cost to the Fund. The Sub-Advisory Agreement is effective for an initial two year period and continues in effect for successive twelve-month periods, provided that the Board annually approves it for continuance.

Portfolio Managers

The following section provides information regarding the Portfolio Managers' other accounts managed, compensation, material conflicts of interests, and any ownership of securities in the Fund. Stephen Miran is the Lead Portfolio Manager for the Fund and Daniel Katz and Thomas Emanuel Dans, CFA are Co-Portfolio Managers.

Stephen Miran. Stephen Miran serves as the Lead Portfolio Manager for the Fund. Dr. Miran is a co-founder of the Fund's Adviser as well as the Adviser's parent, Amberwave Partners, LLC. Previously, he was Senior Advisor for Economic Policy at the United States Department of the Treasury (Treasury) from April 2020 to January 2021 where he assisted with fiscal support to the U.S. economy during the COVID-19 recession. Prior to joining the U.S. Treasury, Dr. Miran worked as portfolio manager and head of macro strategy at Sovarnum Capital LP, from November 2014 to March 2020. Earlier, he worked at Fidelity Investments from 2012 to 2014, and at Lily Pond Capital Management from 2010 to 2012. He received a Ph.D. in economics from Harvard University, and a B.A. in economics and philosophy *summa cum laude* from Boston University.

Daniel Katz. Daniel Katz serves as a Co-Portfolio Manager of the Fund. Mr. Katz is a co-founder of the Fund's Adviser as well as the Adviser's parent, Amberwave Partners, LLC. Previously, he served as a Senior Advisor at the United States Department of the Treasury from September 2019 to January 2021, where he helped lead the Department's efforts to rescue the U.S. aviation industry during the COVID-19 recession. At Treasury, Mr. Katz served as the Chairman of the National Security Loan Program Credit Committee and a member of Airline Loan Program Credit Committee, which collectively oversaw more than \$20 billion of emergency loan transactions. Mr. Katz previously worked as an investment banker at Goldman Sachs & Co. from July 2016 to August 2019. Earlier in his career, Mr. Katz served as a policy advisor at Treasury, where he focused on financial threats to U.S. national security, and as an advisor to the commander of the International Security Assistance Force in Kabul, Afghanistan. Mr. Katz holds a J.D. *magna cum laude* from New York University School of Law and a B.A. in History from Yale College.

Thomas Emanuel Dans, CFA. Thomas Emanuel Dans serves as a Co-Portfolio Manager for the Fund. Mr. Dans is a co-founder of the Fund's Adviser as well as the Adviser's parent, Amberwave Partners, LLC. He has over 30 years of experience in the financial services industry. Mr. Dans has held past domestic and international roles in venture capital, private equity, merchant banking and multi-strategy hedge fund investing at firms including Merrill Lynch, Allen & Company, Evercore Partners and Agribusiness Partners International. From April 2020 until January 2021, Mr. Dans served as Counselor to the Under Secretary for International Affairs at the United States Department of the Treasury, where he was responsible for a range of international economic matters and relief programs to address the COVID-19 recession. Previously, Mr. Dans led Grand River Capital, a strategic consultancy he founded to assist high net worth individuals, hedge funds, and other alternative asset managers. In December 2020, Mr. Dans was appointed by the President of the United States as a Commissioner on the United States Arctic Research Commission, an independent agency of the United States Government that advises the President and Congress on domestic and international Arctic research. He received a B.A. *cum laude* In Russian Studies and U.S. History from Brown University. A Hispanic American, Mr. Dans was selected by Harvard University as a 2015 Advanced Leadership Fellow. He is a Knight in the Sovereign Military Order of Malta. Mr. Dans holds the Chartered Financial Analyst designation and has previously obtained FINRA Series 7 and Series 63 licenses.

Other Accounts Managed by the Portfolio Managers

The table below identifies, for the Portfolio Managers of the Fund, the number of accounts managed (excluding the Fund) and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. To the extent that the advisory fees for any of these accounts are based on account performance, this information is reflected in separate tables below. Asset amounts are approximate as of the date of this SAI and have been rounded. The following table lists the number and types of accounts managed by the portfolio manager and assets under management in those accounts as of November 30, 2021.

Portfolio Managers	Registered Investment Companies (excluding the Fund)		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts
Stephen Miran	0	\$0	0	\$0	0	\$0
Daniel Katz	0	\$0	0	\$0	0	\$0
Thomas Emanuel Dans, CFA	0	\$0	0	\$0	0	\$0

Material Conflicts of Interest

Actual or apparent material conflicts of interest may arise when a Portfolio Manager has day-to-day management responsibilities with respect to more than one investment account or in other circumstances. While the Fund is currently the Adviser's only client, the Adviser expects to manage additional client accounts in the future. Additionally, the Trading Sub-Adviser currently provides trading services to other client accounts. Also, affiliates of the Adviser may manage client accounts that may invest in similar instruments as the Fund. Accordingly, portfolio managers who manage other investment accounts in addition to the Fund may be presented with the potential conflicts described below.

Allocation of Investment Opportunities: If the portfolio manager identifies a limited investment opportunity that may be suitable for multiple client accounts, the Fund may not be able to take full advantage of that opportunity due to liquidity constraints and other factors. The Adviser and Trading Sub-Adviser have adopted policies and procedures designed to ensure that allocations of limited investment opportunities are conducted in a fair and equitable manner between client accounts.

Performance of similarly managed accounts may vary due to a variety of factors, including differing account restrictions, tax management, cash flows, commission rates and inception dates of accounts within a period of time, etc. As a result, the portfolio of securities and other instruments held in any single client account may perform better or worse than the portfolio of securities and other instruments held in another similarly managed client account or in the Fund.

Allocation of Partially Filled Transactions in Securities and Other Instruments: The Adviser or Trading Sub-Adviser expect to typically aggregate for execution as a single transaction orders for the purchase or sale of a particular security or other instrument. If the Adviser or Trading Sub-Adviser is unable to fill an aggregated order completely, but receives a partial fill, the trader will typically allocate the transactions relating to the partially filled order to clients on a pro rata basis. The Adviser or Trading Sub-Adviser

may make exceptions from this general policy from time to time based on factors such as the availability of cash, country/regional/sector allocation decisions, investment guidelines and restrictions, and the costs for minimal allocation actions and in all circumstances takes precautions to avoid systematically disadvantaging any client.

Opposite (e.g. Contradictory) Transactions in Securities: The Adviser, Trading Sub-Adviser and their affiliates may provide investment advisory and trading services for various clients, including the Fund, and under various investment mandates and may give advice and take action, with respect to any of those clients that may differ from the advice given, or the timing or nature of action taken, with respect to any individual client account.

In the course of providing advisory services, the Adviser or its affiliates may simultaneously recommend the sale of a particular security or other instrument for one client account while recommending the purchase of the same or similar security or other instrument for another account. This may occur for a variety of reasons. For example, in order to raise cash to handle a redemption/withdrawal from a client account, the portfolio manager may be forced to sell a security that is otherwise ranked a buy.

Personal Securities Transactions: The Adviser allows its employees to trade in securities and other instruments that it recommends to clients with the approval of the Adviser's chief compliance officer. These transactions may occur at or about the same time that the portfolio manager is purchasing, holding or selling the same or similar securities or instruments for client account portfolios. The actions taken by such persons on a personal basis may be, or be deemed to be, inconsistent with the actions taken by the Adviser for its client accounts. Clients should understand that these activities might create a conflict of interest between the Adviser, its access persons and its clients.

To address this potential conflict, employees must pre-clear all security transactions and provide quarterly and annual holdings statements. In addition, the Adviser and the Trading Sub-Adviser have adopted a written Code of Ethics designed to prevent and detect personal trading activities that may interfere or conflict with client interests (including shareholder's interests in the Fund).

In addition, some portfolios may have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and other client accounts. However, in addition to the precautions discussed above, the compensation structure for portfolio managers (see "Portfolio Manager Compensation" below) generally does not provide any incentive to favor one account over another because that part of a portfolio manager's bonus based on performance is not based on the performance of one account to the exclusion of others.

Portfolio Managers' Compensation

The Adviser believes its compensation program is competitively positioned to attract and retain high-caliber investment professionals and other financial professionals. The Portfolio Managers do not currently receive a salary, but may receive a salary or other compensation in the future. Each Portfolio Manager's compensation is currently based on his respective ownership of the Adviser's parent.

Portfolio Managers' Ownership of the Fund

The following table shows the dollar range of equity securities beneficially owned by the portfolio managers in the Fund as of the date of this SAI.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Stephen Miran	\$0
Daniel Katz	\$0
Thomas Emanuel Dans, CFA	\$0

Other Service Providers

Administrator

Pursuant to a Fund Services Agreement (the "Administration Service Agreement"), Ultimus Fund Solutions, LLC ("UFS"), (formerly, Gemini Fund Services, LLC), 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022 (the "Administrator"), acts as administrator for the Fund, subject to the supervision of the Board. UFS is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual Fund. UFS is an affiliate of the Distributor. UFS may provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of GFS or its affiliates.

The Administration Service Agreement is terminable by the Board or UFS on 60 days' prior written notice and may be assigned provided the non-assigning party provides prior written consent. This Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of UFS or reckless disregard of its obligations thereunder, UFS shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the Administration Service Agreement, UFS provides facilitating administrative services, including: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of the Fund; (ii) facilitating the performance of administrative and professional services to the Fund by others, including the Fund' Custodian; (iii) preparing, but not paying for, the periodic updating of the Fund' Registration Statement, Prospectuses and Statement of Additional Information in conjunction with

Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, and preparing reports to the Fund's shareholders and the SEC; (iv) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or "Blue Sky" laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or its shares under such laws; (v) preparing notices and agendas for meetings of the Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (vi) monitoring daily and periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

For the services rendered to the Fund by the Administrator, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets for fund administration, fund accounting and transfer agency services.

Fund Accounting

UFS, pursuant to the Administration Service Agreement, provides the Fund with accounting services, including: (i) daily computation of net asset value; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund's listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; (v) calculation of yield and total return for the Fund; (vi) maintaining certain books and records described in Rule 31a-1 under the 1940 Act, and reconciling account information and balances among the Fund's custodian or Adviser; and (vii) monitoring and evaluating daily income and expense accruals, and sales and redemptions of shares of the Fund. The Fund also pays the Administrator for any out-of-pocket expenses.

Transfer Agent

Brown Brothers Harriman & Co., located at 50 Post Office Square, Boston, Massachusetts, 02110-1548 acts as transfer, dividend disbursing, and shareholder servicing agent for the Fund pursuant to written agreement with Fund (the "Transfer Agent"). Under the agreement, the Transfer Agent is responsible for administering and performing transfer agent functions, dividend distribution, shareholder administration, and maintaining necessary records in accordance with applicable rules and regulations.

Custodian

Brown Brothers Harriman & Co., located at 50 Post Office Square, Boston, Massachusetts, 02110-1548 (the "Custodian"), serves as the custodian of the Fund' assets pursuant to a Custodian and Transfer Agent Agreement by and between the Custodian and the Trust on behalf of the Fund. The Custodian's responsibilities include safeguarding and controlling the Fund' cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund' investments.

Pursuant to the Custodian and Transfer Agent Agreement, the Custodian also maintains original entry documents and books of record and general ledgers; posts cash receipts and disbursements; and records purchases and sales based upon communications from the Adviser. The Fund may employ foreign sub-custodians that are approved by the Board to hold foreign assets.

Compliance Services

Northern Lights Compliance Services, LLC (“NLCS”), 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between NLCS and the Trust. The Fund pays a compliance service fee to NLCS.

Legal Counsel

Alston & Bird, LLP, 950 F Street NW, Washington, D.C. 20004, serves as counsel to the Trust. Blank Rome LLP, 1271 Avenue of the Americas, New York, NY 10020, serves as counsel to the Independent Trustees.

Independent Registered Public Accounting Firm

BBD, LLP, 1835 Market Street, 3rd Floor, Philadelphia, PA 19103 serves as the independent registered public accounting firm of the Fund.

Distribution of Fund Shares

Northern Lights Distributors, LLC, located at 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022 (the “Distributor”), serves as the principal underwriter and national distributor for the shares of the Fund pursuant to an ETF Distribution Agreement with the Trust (the “Distribution Agreement”). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state’s securities laws and is a member of FINRA. The offerings of the Shares are continuous and the Distributor acts as an agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investments or investment policies of the Fund.

The Distribution Agreement provides that, unless sooner terminated, it will continue in effect for two years initially and thereafter shall continue from year to year, subject to annual approval by (a) the Board or a vote of a majority of the outstanding shares, and (b) by a majority of the Trustees who are not parties to the Distribution Agreement or the Trust’s distribution plan or interested persons of the Trust or of the Distributor (“Qualified Trustees”) by vote cast in person at a meeting called for the purpose of voting on such approval.

The Distribution Agreement may at any time be terminated, without penalty by the Trust, by vote of a majority of the Qualified Trustees or by vote of a majority of the outstanding shares of the Trust on 60 days' written notice to the other party. The Distribution Agreement will automatically terminate in the event of its assignment.

The Fund does not pay the Distributor any fees under the Distribution Agreement. However, the Advisor pays an annual fee to the Distributor plus reasonable out-of-pocket expenses incurred by Distributor in connection with activities performed for the Fund, including, without limitation, printing and distribution of prospectuses and shareholder reports, out of its own resources.

Portfolio Transactions and Brokerage Allocation

Pursuant to the Advisory Agreement and Sub-Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Fund while the Trading Sub-Adviser determines which broker-dealers are eligible to execute the Fund's portfolio transactions. Purchases and sales of securities in the OTC market will generally be executed directly with a "market-maker" unless, in the opinion of the Trading Sub-Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Trading Sub-Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that they may lawfully and appropriately use in their investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Trading Sub-Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Sub-Advisory Agreement with the Adviser, to be useful in varying degrees, but of indeterminable value.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients.

Investment decisions for the Fund may or may not be made independently from those of other client accounts of the Adviser. In certain instances, investment decisions will be made that are similar to other accounts managed. In the case where the Fund and other accounts use similar strategies, applicable procedures will be taken to ensure trading allocations will be handled fairly and abide by all appropriate rules and regulations. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Trading Sub-Adviser may execute buy and sell orders for accounts and take action in performance of its duties with respect to any of its accounts that may differ from actions taken with respect to another account, so long as the Trading Sub-Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Fund, over a period of time on a fair and equitable basis and in accordance with applicable law.

The Fund is required to identify any securities of its "regular brokers or dealers" that the Fund has acquired during its most recent fiscal year. The Fund is also required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Trading Sub-Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage, research and other services provided to the Fund. In allocating portfolio brokerage, the Trading Sub-Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Trading Sub-Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

Portfolio Turnover

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (i) the lesser of purchases or sales of portfolio securities for the fiscal year by (ii) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction costs, could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income tax rates (currently as high as 37%) and could increase brokerage commission costs. To the extent that the Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund and may result in a greater number of taxable transactions.

Code of Ethics

The Fund, the Adviser, and the Distributor have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, personnel of the Adviser, and Distributor to invest in securities that may be purchased or held by the Fund.

Proxy Voting Procedures

The Board of Trustees has adopted proxy voting policies and procedures ("Proxy Policies") wherein the Trust has delegated to the Adviser the responsibility for voting proxies relating to portfolio securities held by the Fund as part of its investment

advisory services, subject to the supervision and oversight of the Board of Trustees. The Proxy Voting Policies of the Adviser are included as Appendix B.

More Information. Information regarding how the Fund voted proxies relating to portfolio securities during the twelve-month period ended June 30 will be available without charge, upon request, by calling toll-free, 1-800-SEC-0330 or by accessing the SEC's website at www.sec.gov.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Trust's Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. The Trust's secretary serves as its Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to, determining that the Fund's Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a providing a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Trust may be required to "freeze" the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Trust may be required to transfer the account or proceeds of the account to a governmental agency.

Portfolio Holdings Information

The Trust has adopted policies and procedures that govern the disclosure of the Fund' portfolio holdings. These policies and procedures are designed to ensure that such disclosure is in the best interests of Fund shareholders.

The Fund's portfolio holdings are publicly disseminated each day the Fund is open for business through financial reporting and news services, including publicly accessible Internet websites. In addition, a basket composition file, which includes the security names and share quantities to deliver in exchange for Fund shares, together with estimates and actual cash components, is publicly disseminated each day the New York Stock Exchange is open for trading via the National Securities Clearing Corporation

(‘NSCC’). Pursuant to Rule 6c-11 under the 1940 Act, information regarding the Fund’s current portfolio holdings will be available on a daily basis at <http://www.jsgfunds.com>.

Compliance With Portfolio Holdings Disclosure Procedures

The Trust’s Chief Compliance Officer will report periodically to the Board with respect to compliance with the Fund’ portfolio holdings disclosure procedures, and from time to time will provide the Board any updates to the portfolio holdings disclosure policies and procedures.

There is no assurance that the Trust’s policies on disclosure of portfolio holdings will protect the Fund from the potential misuse of holdings information by individuals or firms in possession of that information.

Purchase, Redemption and Pricing of Shares

Calculation of Share Price

As indicated in the Prospectus under the heading "How Shares are Priced," Shares of the Fund are bought and sold at a price in two different ways depending upon the type of investor.

Investors may buy and sell Shares in secondary market transactions through brokers at market prices and the Shares will trade at market prices.

Only authorized participants may buy and redeem Shares from the Fund directly and those transactions are effected at the Fund’s NAV.

The NAV of the Fund's shares is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund.

As indicated in the Prospectus under the heading "Net Asset Value," the net asset value ("NAV") of the Fund’s shares is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund, by class.

Generally, the Fund’s domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary

exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Fund' fair value committee in accordance with procedures approved by the Board and as further described below. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximated fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction. Swap agreements and other derivatives are generally valued daily based upon quotations from market makers or by a pricing service in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Fund shares are not priced, the value of securities held by the Fund can change on days when Fund shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed

unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Fund's fair value committee in accordance with procedures approved by the Board as discussed below. Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Fund shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. As a result, the NAV of the Fund's shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the New York Stock Exchange is closed and an investor is not able to purchase, redeem or exchange shares.

Fund shares are valued at the close of regular trading on the New York Stock Exchange (normally 4:00 p.m., Eastern time) (the "NYSE Close") on each day that the New York Stock Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the NYSE Close and does not normally take into account trading, clearances or settlements that take place after the NYSE Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

When market quotations are insufficient or not readily available, the Fund may value securities at fair value or estimate their value as determined in good faith by the Board or its designees, pursuant to procedures approved by the Board. Fair valuation may also be used by the Board if extraordinary events occur after the close of the relevant market but prior to the NYSE Close.

The Fund may hold securities, such as private placements, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued at their fair market value as determined using the "fair value"

procedures approved by the Board. The Board has delegated execution of these procedures to a fair value team composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Adviser and/or Trading Sub-Adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

Fair Value Committee and Valuation Process. The fair value committee is composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Adviser and/or Trading Sub-Adviser. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source), (ii) securities for which, in the judgment of the Adviser or Trading Sub-Adviser, the prices or values available do not represent the fair value of the instrument. Factors which may cause the Adviser or Trading Sub-Adviser to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to the Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the Adviser or Trading Sub-Adviser valuation based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the Adviser or Trading Sub-Adviser is unable to obtain a current bid from such independent dealers or other independent parties, the fair value team shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the

security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

Standards For Fair Value Determinations. As a general principle, the fair value of a security is the amount that the Fund might reasonably expect to realize upon its current sale. The Trust has adopted Financial Accounting Standards Board Statement of Financial Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures ("ASC 820"). In accordance with ASC 820, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability, developed based on the best information available under the circumstances.

Various inputs are used in determining the value of the Fund's investments relating to ASC 820. These inputs are summarized in the three broad levels listed below.

Level 1 – quoted prices in active markets for identical securities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The fair value team takes into account the relevant factors and surrounding circumstances, which may include: (i) the nature and pricing history (if any) of the security; (ii) whether any dealer quotations for the security are available; (iii) possible valuation methodologies that could be used to determine the fair value of the security; (iv) the recommendation of a portfolio manager of the Fund with respect to the valuation of the security; (v) whether the same or similar securities are held by other Fund managed by the Adviser (or Trading Sub-Adviser) or other Fund and the method used to price the security in those Fund; (vi) the extent to which the fair value to be

determined for the security will result from the use of data or formulae produced by independent third parties and (vii) the liquidity or illiquidity of the market for the security.

Board of Trustees Determination. The Board of Trustees meets at least quarterly to consider the valuations provided by the fair value committee and to ratify the valuations made for the applicable securities. The Board of Trustees considers the reports provided by the fair value committee, including follow up studies of subsequent market-provided prices when available, in reviewing and determining in good faith the fair value of the applicable portfolio securities.

The Trust expects that the New York Stock Exchange ("NYSE") will be closed on the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

Creation and Redemption of Creation Units

General

An ETF, such as the Fund, generally issues and redeems shares in primary market transactions through a creation and redemption mechanism and does not sell or redeem individual shares. Instead, financial entities, known as "Authorized Participants," have contractual arrangements with an ETF or one of the ETF's service providers to purchase and redeem ETF shares directly with the ETF in large blocks of shares known as "Creation Units." Prior to start of trading on each business day, an ETF publishes through the NSCC the "basket" of securities, cash or other assets that it will accept in exchange for a Creation Unit of the ETF's shares. An Authorized Participant that wishes to effectuate a creation of an ETF's shares deposits with the ETF the "basket" of securities, cash or other assets identified by the ETF that day, and then receives the Creation Unit of the ETF's shares in return for those assets. After purchasing a Creation Unit, the Authorized Participant may continue to hold the ETF's shares or sell them in the secondary market. The redemption process is the reverse of the purchase process: the authorized participant redeems a Creation Unit of ETF shares for a basket of securities, cash or other assets. The combination of the creation and redemption process with secondary market trading in ETF shares and underlying securities provides arbitrage opportunities that are designed to help keep the market price of ETF shares at or close to the NAV per share of the ETF.

An "Authorized Participant" is a member or participant of a clearing agency registered with the SEC that has a written agreement with the Fund or one of its service providers that allows the Authorized Participant to place orders for the purchase or redemption of Creation Units (a "Participant Agreement"). Orders to purchase Creation Units must

be delivered through an Authorized Participant that has executed a Participant Agreement and must comply with the applicable provisions of such Participant Agreement. Investors wishing to purchase or sell shares generally do so on an exchange. Institutional investors other than Authorized Participants are responsible for making arrangements for a redemption request to be made through an Authorized Participant.

A "Business Day" is generally any day on which the NYSE, the Exchange and the Trust are open for business. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Business Day on which an order to purchase or redeem Creation Units is received in proper form is referred to as the "Transmittal Date."

Basket Composition and Custom Baskets.

Rule 6c-11(c)(3) under of the 1940 Act requires an ETF relying on the exemptions offered by Rule 6c-11 to adopt and implement written policies and procedures governing the construction of baskets and the process that the ETF will use for the acceptance of baskets. In general, in connection with the construction and acceptance of baskets, the Adviser may consider various factors, including, but not limited to: (1) whether the securities, assets and other positions comprising a basket are consistent with the ETF's investment objective(s), policies and disclosure; (2) whether the securities, assets and other positions can legally and readily be acquired, transferred and held by the ETF and/or Authorized Participant(s), as applicable; (3) whether to utilize cash, either in lieu of securities or other instruments or as a cash balancing amount; and (4) in the case of an ETF that tracks an index, whether the securities, assets and other positions aid index tracking.

The Fund may utilize a pro-rata basket or a custom basket in reliance on Rule 6c-11. A "pro-rata basket" is a basket that is a pro rata representation of the ETF's portfolio holdings, except for minor deviations when it is not operationally feasible to include a particular instrument within the basket, except to the extent that the Fund utilized different baskets in transactions on the same Business Day.

Rule 6c-11 defines "custom baskets" to include two categories of baskets. First, a basket containing a non-representative selection of the ETF's portfolio holdings would constitute a custom basket. These types of custom baskets include, but are not limited to, baskets that do not reflect: (i) a pro rata representation of the Fund's portfolio holdings; (ii) a representative sampling of an ETF's portfolio holdings; or (iii) changes due to a rebalancing or reconstitution of an ETF's securities market index, if applicable. Second, if different baskets are used in transactions on the same Business Day, each basket after the initial basket would constitute a custom basket. For example, if an ETF

exchanges a basket with either the same or another Authorized Participant that reflects a representative sampling that differs from the initial basket, that basket (and any such subsequent baskets) would be a custom basket. Similarly, if an ETF substitutes cash in lieu of a portion of basket assets for a single Authorized Participant, that basket would be a custom basket. The Adviser's Rule 6c-11 Committee defines any deviation from a pro-rata basket to be a "custom basket."

Under a variety of circumstances, an ETF and its shareholders may benefit from the flexibility afforded by custom baskets. In general terms, the use of custom baskets may reduce costs, increase efficiency and improve trading. Because utilizing custom baskets provides a way for an ETF to add, remove and re-weight portfolio securities without transacting in the market, it may help the ETF to avoid transaction costs and adverse tax consequences. Rule 6c-11 provides an ETF with flexibility to use "custom baskets" if the ETF has adopted written policies and procedures that: (1) set forth detailed parameters for the construction and acceptance of custom baskets that are in the best interests of the ETF and its shareholders, including the process for any revisions to, or deviations from, those parameters; and (2) specify the titles or roles of employees of the ETF's investment adviser who are required to review each custom basket for compliance with those parameters.

The use of baskets that do not correspond to pro rata to an ETF's portfolio holdings has historically created concern that an Authorized Participant could take advantage of its relationship with an ETF and pressure the ETF to construct a basket that favors an Authorized Participant to the detriment of the ETF's shareholders. For example, because ETFs rely on Authorized Participants to maintain the secondary market by promoting an effective arbitrage mechanism, an Authorized Participant holding less liquid or less desirable securities potentially could pressure an ETF into accepting those securities in its basket in exchange for liquid ETF shares (i.e., dumping). An Authorized Participant also could pressure the ETF into including in its basket certain desirable securities in exchange for ETF shares tendered for redemption (i.e., cherry-picking). In either case, the ETF's other investors would be disadvantaged and would be left holding shares of an ETF with a less liquid or less desirable portfolio of securities. The Adviser has adopted policies and procedures designed to mitigate these concerns but there is ultimately no guarantee that such policies and procedures will be effective.

Basket Dissemination

Basket files are published for consumption through the NSCC, a subsidiary of Depository Trust & Clearing Corporation, and can be utilized for pricing, creations, redemptions, rebalancing and custom scenarios. In most instances, pro rata baskets are calculated and supplied by the ETF's custodial bank based on ETF holdings, whereas non-pro rata, custom and forward-looking pro rata baskets are calculated by a fund's investment adviser and disseminated by the ETF's custodial bank through the NSCC

process. Prior to the opening of business of the Exchange (currently 9:30 a.m., Eastern Time), the Fund publishes this information for the day (subject to correction of any errors) and is made available through the NSCC to effectuate creations or redemptions of Creation Units of the Fund until the next list is announced on the next Business Day.

Placement of Creation or Redemption Orders

All orders to purchase or redeem Creation Units are to be governed according to the applicable Participant Agreement that each Authorized Participant has executed. In general, all orders to purchase or redeem Creation Units must be received by the transfer agent in the proper form required by the Participant Agreement no later than the closing time of the regular trading session of the NYSE (ordinarily 4:00 p.m. Eastern Standard Time) on each day the NYSE is open for business (the "Closing Time") in order for the purchase or redemption of Creation Units to be effected based on the NAV of shares of the Fund as next determined on such date after receipt of the order in proper form. This deadline may be extended upon agreement between the transfer agent, Authorized Participant and the applicable Fund. At its discretion, the Fund may also require an Authorized Participant to submit orders to purchase or redeem Creation Units be placed earlier in the day (such as instances where an applicable market for a security comprising a creation or redemption basket closes earlier than usual). In the case of custom orders, the order must be received by the transfer agent no later than 3:00 p.m. Eastern Time. A Fund may also accept orders to create Creation Units, whether through the Clearing Process (through a "Participating Party", i.e., a broker-dealer or other participant in the Continuous Net Settlement system of the NSCC (the "Clearing Process"), a clearing agency that is registered with the SEC) or outside the Clearing Process (through a DTC Participant, in either case, such party has signed a Participant Agreement with the Distributor), which must be submitted as a "Future Dated Traded" set for one or more Creation Units between 4:30 p.m. Eastern Time and 5:30 p.m. Eastern Time (the "Order Window") in the manner set forth in the Participant Agreement and/or applicable order form. This deadline may be extended upon agreement between the transfer agent, Authorized Participant and the applicable Fund. In the case of custom orders, the order must be received by the transfer agent no later than 3:00 p.m. Eastern Time. A Fund may also accept orders to redeem Creation Units, which must be submitted as a "Future Dated Traded" set for one or more Creation Units between the Order Window in the manner set forth in the Participant Agreement and/or applicable order form. This deadline may be extended upon agreement between the transfer agent, Authorized Participant and the applicable Fund. Shares of the Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders from investors who are not Authorized Participants to create Creation Units shall be placed with an Authorized Participant, in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make

certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to create Creation Units of the Fund have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those persons placing orders should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Instruments (as defined below) and Cash Component (as defined below). Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the end of the Order Window. Order for Creation Units that are effected outside of the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. The delivery of Creation Units created through the Clearing Process will occur no later than the second Business Day following the Transmittal Date (T+2).

A "Deposit Instrument" (an in-kind deposit of a designated portfolio of securities and other instruments) must be delivered to the Trust through DTC or NSCC, and Deposit Instruments which are non-U.S. securities, if applicable, must be delivered to an account maintained at the applicable local sub-custodian of the Trust on or before the International Contractual Settlement Date, as defined below. If a Deposit Security is an ADR or similar domestic instrument, it may be delivered to the Custodian. Deposit Instruments must be delivered to the Fund through the applicable processes set forth in the Participant Agreement.

Beneficial Owners of the Fund's shares may sell their shares in the secondary market but must accumulate enough shares to constitute a Creation Unit to redeem through the Fund. The Fund will not redeem shares in amounts less than Creation Units and there can be no assurance that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur customary brokerage and other costs in connection with assembling a sufficient number of the Fund's shares to constitute a redeemable Creation Unit. Redemption requests must be placed by or through an Authorized Participant. Creation Units will be redeemable at their NAV per Creation Unit next determined after receipt of a request for redemption by the applicable Fund.

In connection with taking delivery of shares of non-U.S. Fund Securities, if applicable, upon redemption of shares of the Fund, a redeeming Beneficial Owner, or Authorized Participant acting on behalf of such Beneficial Owner, must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in

each jurisdiction in which any of the Fund Securities are customarily traded, to which account the Fund Securities will be delivered.

To the extent contemplated by an Authorized Participant's agreement, in the event the Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the Creation Unit to be redeemed to the Fund's transfer agent, the transfer agent will nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible. Such undertaking shall be secured by the Authorized Participant's delivery and maintenance of collateral consisting of cash having a value (marked to market daily) at least equal to 102% (105% for international securities), which the Adviser or Trading Sub-Adviser may change from time to time, of the value of the missing shares.

Purchase and Issuance of Creation Units

The consideration for purchase of a Creation Unit of shares of the Fund generally consists of Deposit Instruments and an amount of cash computed as described below (the "Cash Component" sometimes also referred to as the "Balancing Amount"). Together, the Deposit Instruments (and/or any cash with respect to cash purchases and cash-in-lieu amounts) and the Cash Component constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the "Deposit Amount" (an amount equal to the aggregate market value of the Deposit Instruments and/or cash in lieu of all or a portion of the Deposit Instruments).

A Creation Unit will generally not be issued until the transfer of good title to the applicable Fund of the Deposit Instruments and the payment of the Cash Component, the Creation Transaction Fee (as discussed below) and any other required cash amounts have been completed. To the extent contemplated by the applicable Participant Agreement, Creation Units of the Fund will be issued to such Authorized Participant notwithstanding the fact that the corresponding Fund Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Instruments as soon as possible, which undertaking shall be secured by such Authorized Participant's delivery and maintenance of collateral consisting of cash in the form of U.S. dollars in immediately available funds having a value (marked to market daily) at least equal to 102% (105% for international securities) which the Adviser or Trading Sub-Adviser may change from time to time of the value of the missing Deposit Instruments. Such cash collateral must be delivered no later than 2:00 p.m., Eastern Time, on the contractual settlement date. The Participant Agreement will permit the Fund to use such collateral to buy the missing Deposit Instruments at any time and will subject the Authorized Participant to

liability for any shortfall between the cost to the applicable Fund of purchasing such securities and the value of the collateral.

Delivery of Redemption Proceeds

Deliveries of securities to Authorized Participants in connection with redemption orders are generally expected to be made within two Business Days. Due to the schedule of holidays in certain countries, however, the delivery of in-kind redemption proceeds for the Fund may take longer than two Business Days after the day on which the redemption request is received in proper form. Section 22(e) of the 1940 Act generally prohibits a registered open-end management investment company from postponing the date of satisfaction of redemption requests for more than seven days after the tender of a security for redemption. This prohibition can cause operational difficulties for ETFs that hold foreign investments and exchange in-kind baskets for Creation Units. For example, local market delivery cycles for transferring foreign investments to redeeming investors, together with local market holiday schedules, can sometimes require a delivery process in excess of seven days. However, Rule 6c-11 grants relief from Section 22(e) to permit an ETF to delay satisfaction of a redemption request for more than seven days if a local market holiday, or series of consecutive holidays, or the extended delivery cycles for transferring foreign investments to redeeming Authorized Participants, or the combination thereof prevents timely delivery of the foreign investment included in the ETF's basket. Under this exemption, an ETF must deliver foreign investments as soon as practicable, but in no event later than 15 days after the tender to the ETF. The exemption therefore will permit a delay only to the extent that additional time for settlement is actually required, when a local market holiday, or series of consecutive holidays, or the extended delivery cycles for transferring foreign investments to redeeming authorized participants prevents timely delivery of the foreign investment included in the ETF's basket. If a foreign investment settles in less than 15 days, Rule 6c-11 requires an ETF to deliver it pursuant to the standard settlement time of the local market where the investment trades. Rule 6c-11 defines "foreign investment" as any security, asset or other position of the ETF issued by a foreign issuer (as defined by Rule 3b-4 under the 1934 Act), and that is traded on a trading market outside of the United States. This definition is not limited to "foreign securities," but also includes other investments that may not be considered securities. Although these other investments may not be securities, they may present the same challenges for timely settlement as foreign securities if they are transferred in kind.

The redemption proceeds for a Creation Unit generally consist of the Deposit Instruments—as announced on the Business Day of the request for redemption received in proper form—plus or minus cash in an amount equal to the difference between the net asset value of the Fund shares (per Creation Unit) being redeemed, as next determined on the Transmittal Date after receipt of a request in proper form on the Submission Date, and the aggregate market value of the Deposit Instruments (the

“Cash Redemption Amount”), less the applicable Redemption Transaction Fee (as described below) and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes. In the event that the Deposit Instruments have an aggregate market value greater than the net asset value of the Fund’s shares (per Creation Unit), a compensating cash payment equal to the difference plus the applicable Redemption Transaction Fee and, if applicable, any operational processing and brokerage costs, transfer fees or stamp taxes, is required to be made by or through an Authorized Participant by the redeeming shareholder.

Creation and Redemption Orders Outside the Clearing Process

As described above, the Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of the NSCC. Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement with the Trust, the Distributor and the Administrator. A DTC Participant who wishes to place an order creating Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Submission Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Trust by no later than 11:00 a.m., Eastern Time, of the next Business Day immediately following the Transmittal Date. All questions as to the number of Deposit Instruments to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The cash equal to the Cash Component must be transferred directly to the Administrator through the Federal Reserve wire system in a timely manner so as to be received by the Administrator no later than 2:00 p.m., Eastern Time, on the next Business Day immediately following the Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor during the Order Window on the Submission Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if the Administrator does not receive both the requisite Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day immediately following the Transmittal Date, such order will be cancelled. Upon written notice to the Distributor, such cancelled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Units so created will occur no later than the second Business Day following the Transmittal Date (T+2).

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Instruments as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the Transmittal Date in proper form since in addition to available Deposit Instruments, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) 102% (105% for international securities) of the market value of the undelivered Deposit Securities (the "Additional Cash Deposit"). The order shall be deemed to be received on the Submission Date provided that the order is placed in proper form during the Order Window on such date and federal funds in the appropriate amount are deposited with the Administrator by 11:00 a.m., Eastern Time, on the Business Day following the Transmittal Date. If the order is not placed in proper form during the Order Window on the Submission Date or federal funds in the appropriate amount are not received by 11:00 a.m. on the Business Day following the Transmittal Date, then the order may be deemed to be rejected and the investor shall be liable to the Trust for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Instruments to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 102% (105% for international securities) of the daily marked to market value of the missing Deposit Instruments. To the extent that missing Deposit Instruments are not received by 1:00 p.m., Eastern Time, on the second Business Day following the Transmittal Date or in the event a mark to market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Instruments. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Instruments exceeds the market value of such Deposit Instruments on the Transmittal Date by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Instruments have been properly received by the Administrator or purchased by the Trust and deposited into the Trust. In addition, a transaction fee will be charged in all cases. The delivery of Creation Units of the Fund so created will occur no later than the second Business Day following the Transmittal Date. However, as discussed in the section below, the Fund reserves the right to settle Creation Unit transactions on a basis other than the second Business Day following the Transmittal Date to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances. The Authorized Participant shall be liable to the Fund for losses, if any, resulting from unsettled orders.

Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC

Participant who wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Administrator on the Transmittal Date if (i) such order is received by the Administrator during the Order Window on the Submission Date; (ii) such order is accompanied or proceeded by the requisite number of shares of the Fund and/or the Cash Redemption Amount specified in such order, which delivery must be made through DTC to the Administrator no later than 11:00 a.m. and 2:00 p.m., respectively, Eastern Time, on the next Business Day following the Transmittal Date (the "DTC Cut-Off-Time"); and (iii) all other procedures set forth in the Participant Agreement are properly followed.

After the Administrator has deemed an order for redemption outside the Clearing Process received, the Administrator will initiate procedures to transfer the requisite Fund Securities, which are expected to be delivered within two Business Days, and/or the Cash Redemption Amount to the Authorized Participant, on behalf of the redeeming Beneficial Owner, by the second Business Day following the Transmittal Date on which such redemption order is deemed received by the Administrator.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered upon redemption will be made by the Administrator according to the Fund's established evaluation procedures computed on the Transmittal Date. Therefore, if a redemption order in proper form is submitted to the Administrator by a DTC Participant during the Order Window on the Submission Date, and the requisite number of shares of the Fund are delivered to the custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and/or the Cash Redemption Amount to be delivered will be determined by the Administrator on such Transmittal Date. If, however, a redemption order is submitted to the Administrator by a DTC Participant during the Order Window on the Submission Date, but either (1) the requisite number of shares of the Fund are not delivered by the DTC Cut-Off-Time as described above on the next Business Day following the Transmittal Date or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Submission Date. In such case, the value of the Fund Securities and the Cash Redemption Amount to be delivered will be computed on the Business Day that such order is deemed received by the Administrator, i.e., the Business Day on which the shares of the Fund are delivered through DTC to the Administrator by the DTC Cut-Off-Time on such Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem such shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds in cash. In

addition, an investor may request a redemption in cash which the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined on the Transmittal Date (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities which differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Fund could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular stock included in the Fund Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of shares of the Fund to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of Shares or delivery instructions. The Trust also reserves the right to offer an "all cash" option for redemptions of Creation Units for the Fund.

Transaction Fees

A fixed fee payable to the Custodian is imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction ("Fixed Fee"). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu (as defined below) are required to pay an additional variable charge to compensate the Fund and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions ("Variable Charge," and together with the Fixed Fee, the "Transaction Fees"). With the approval of the Board, the Adviser may waive or adjust the Transaction Fees, including the Fixed Fee and/or Variable Charge (shown in the table below), from time to time. In such cases, the Authorized Participant will reimburse the Fund for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Fund and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes. In addition, purchasers of Creation Units are responsible for the costs of transferring the Deposit Securities to the accounts of the Fund.

Investors who use the services of a broker, or other such intermediary may be charged a fee for such services. The Transaction Fee for the Fund is listed in the table below.

Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases*
\$500	2.0%

* As a percentage of the amount invested.

Suspension of Creations

The SEC has stated its position that an ETF generally may suspend the issuance of Creation Units only for a limited time and only due to extraordinary circumstances, such as when the markets on which the ETF's portfolio holdings are traded are closed for a limited period of time. The SEC has also stated that an ETF could not set transaction fees so high as to effectively suspend the issuance of Creation Units. Circumstances in which the Fund may suspend creations include, but are not limited to: (i) the order is not in proper form; (ii) the purchaser or group of related purchasers, upon obtaining the Creation Units of Fund shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the required consideration is not delivered; (iv) the acceptance of the Fund Deposit would have certain adverse tax consequences; (v) the acceptance of the Fund Deposit would, in the opinion of the Fund, be unlawful; (vi) the acceptance of the Fund Deposit would otherwise, in the discretion of the Fund, Adviser and/or the Trading Sub-Adviser, have an adverse effect on the Fund or the rights of the Fund's Beneficial Owners; or (vii) there exist circumstances outside the control of the Fund that make it impossible to process purchases of Creation Units for all practical purposes. Examples of such circumstances include: acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Fund, the Adviser, the Distributor, DTC, NSCC, the transfer agent, the custodian, any sub-custodian or any other participant in the purchase process; and similar extraordinary events. The Fund reserves the absolute right to reject a creation order transmitted to it. The Transfer Agent shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of such prospective creator of the rejection of the order of such person. The Trust, the Fund, the Transfer Agent, the custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, nor shall any of them incur any liability for the failure to give any such notification.

Suspension of Redemptions

An ETF may suspend the redemption of Creation Units only in accordance with Section 22(e) of the 1940 Act. Section 22(e) stipulates that no registered investment company

shall suspend the right of redemption, or postpone the date of payment or satisfaction upon redemption of any redeemable security in accordance with its terms for more than seven days after the tender of such security to the company or its agent designated for that purpose for redemption, except (1) for any period (A) during which the NYSE is closed other than customary week-end and holiday closings or (B) during which trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which (A) disposal by the investment company of securities owned by it is not reasonably practicable or (B) it is not reasonably practicable for such company fairly to determine the value of its net assets; or (3) for such other periods as the SEC may by order permit for the protection of security holders of the investment company.

Exceptions to Use of Creation Units

Under Rule 6c-11 of the 1940 Act, ETFs are permitted to sell or redeem individual shares on the day of consummation of a reorganization, merger, conversion, or liquidation. In these limited circumstances, an ETF may need to issue or redeem individual shares and may need to transact without utilizing Authorized Participants.

Tax Status

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. All shareholders should consult a qualified tax advisor regarding their investment in the Fund.

The Fund qualifies and has elected to be treated as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Tax Code"), and intends to continue to so qualify, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net capital gain, which are distributed to shareholders in accordance with the applicable timing requirements. Net investment income and net capital gain of the Fund will be computed in accordance with Section 852 of the Tax Code.

Net investment income is made up of dividends and interest less expenses. Net capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund. Capital losses may be carried forward indefinitely and retain the character of the original loss. Capital loss carry forwards are available to offset future realized capital gains. To the extent that these carry forwards are used to offset future capital gains it is probable that the amount offset will not be distributed to shareholders.

The Fund intends to distribute all of its net investment income, any excess of net short-term capital gains over net long-term capital losses, and any excess of net long-term capital gains over net short-term capital losses in accordance with the timing requirements imposed by the Tax Code and therefore should not be required to pay any federal income or excise taxes. Distributions of net investment income will be made semi-annually for the Fund. Distributions of net capital gain, if any, will be made annually no later than December 31 of each year. Both types of distributions will be in shares of the Fund unless a shareholder elects to receive cash.

To be treated as a regulated investment company under Subchapter M of the Tax Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holding so that, at the end of each fiscal quarter, (i) at least 50% of the market value of the Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of the Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities of (other than U.S. government securities or the securities of other regulated investment companies) any one issuer, two or more issuers that the Fund controls and that are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such, the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

The Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and capital gain under a prescribed formula contained in Section 4982 of the Tax Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of the Fund's ordinary income for the calendar year and at least 98.2% of its capital gain net income (i.e., the excess of its

capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to the Fund during the preceding calendar year. Under ordinary circumstances, the Fund expects to time its distributions so as to avoid liability for this tax.

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Tax Code.

Distributions of taxable net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to shareholders as ordinary income.

Distributions of net capital gain ("capital gain dividends") generally are taxable to shareholders as long-term capital gain; regardless of the length of time the shares of the Trust have been held by such shareholders.

Certain U.S. shareholders, including individuals and estates and trusts, are subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Redemption of Fund shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder's tax basis in his or her Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions of taxable net investment income and net capital gain will be taxable as described above, whether received in additional cash or shares. Shareholders electing to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the net asset value of a share on the reinvestment date.

All distributions of taxable net investment income and net capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to

have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Under the Tax Code, the Fund are required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Tax Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund are notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

Dividends and Distributions

The Fund will receive income in the form of dividends and interest earned on its investments in securities. This income, less the expenses incurred in its operations, is the Fund's net investment income, substantially all of which will be declared as dividends to the Fund's shareholders.

The amount of income dividend payments by the Fund is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed and is subject to the discretion of the Board. The Fund does not pay "interest" or guarantee any fixed rate of return on an investment in its shares.

The Fund also may derive capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain the Fund may realize from transactions involving investments held less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses, although a distribution from capital gains, will be distributed to shareholders with and as a part of dividends giving rise to ordinary income. If during any year the Fund realizes a net gain on transactions involving investments held more than the period required for long-term capital gain or loss recognition or otherwise producing

long-term capital gains and losses, the Fund will have a net long-term capital gain. For more information concerning applicable capital gains tax rates, see your tax advisor.

Any dividend or distribution paid by the Fund reduces the Fund's NAV per share on the date paid by the amount of the dividend or distribution per share. Accordingly, a dividend or distribution paid shortly after a purchase of shares by a shareholder would represent, in substance, a partial return of capital (to the extent it is paid on the shares so purchased), even though it would be subject to income taxes.

Distributions in cash may be reinvested automatically in additional whole shares only if the broker through which a shareholder purchased shares makes such option available.

There are and will likely continue to be proposals for amendments to federal income tax laws that could, if enacted, have adverse effects on the Fund, its investments or its shareholders. Shareholders should consult their tax advisors about the application of federal, state and local and foreign tax law in light of their particular situation.

The above discussion and the related discussion in the Prospectus are not intended to be complete discussions of all applicable federal tax consequences of an investment in the Fund. Alston & Bird LLP has expressed no opinion in respect thereof.

Financial Statements

The Fund recently commenced operations and, therefore, has not produced financial statements. Once produced, you can obtain a copy of the financial statements contained in the Fund's Annual or Semi-Annual Report without charge by calling the Fund toll free at (888) 926-1931.

APPENDIX “A” RATINGS DEFINITIONS

Standard & Poor’s Issue Credit Rating Definitions

A Standard & Poor’s issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects Standard & Poor’s view of the obligor’s capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Issue credit ratings can be either long term or short term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days—including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. The result is a dual rating, in which the short-term rating addresses the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

Short-Term Issue Credit Ratings

A-1

A short-term obligation rated ‘A-1’ is rated in the highest category by Standard & Poor’s. The obligor’s capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong.

A-2

A short-term obligation rated ‘A-2’ is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitment on the obligation is satisfactory.

A-3

A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B

A short-term obligation rated 'B' is regarded as having significant speculative characteristics. Ratings of 'B-1', 'B-2', and 'B-3' may be assigned to indicate finer distinctions within the 'B' category. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B-1

A short-term obligation rated 'B-1' is regarded as having significant speculative characteristics, but the obligor has a relatively stronger capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-2

A short-term obligation rated 'B-2' is regarded as having significant speculative characteristics, and the obligor has an average speculative-grade capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-3

A short-term obligation rated 'B-3' is regarded as having significant speculative characteristics, and the obligor has a relatively weaker capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

C

A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D

A short-term obligation rated 'D' is in payment default. The 'D' rating category is used when payments on an obligation, including a regulatory capital instrument, are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor's believes that such payments will be made during such grace period. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

SPUR (Standard & Poor's Underlying Rating)

This is a rating of a stand-alone capacity of an issue to pay debt service on a credit-enhanced debt issue, without giving effect to the enhancement that applies to it. These ratings are published only at the request of the debt issuer/obligor with the designation SPUR to distinguish them from the credit-enhanced rating that applies to the debt issue. Standard & Poor's maintains surveillance of an issue with a published SPUR.

Dual Ratings

Standard & Poor's assigns "dual" ratings to all debt issues that have a put option or demand feature as part of their structure. The first rating addresses the likelihood of repayment of principal and interest as due, and the second rating addresses only the demand feature. The long-term rating symbols are used for bonds to denote the long-term maturity and the short-term rating symbols for the put option (for example, 'AAA/A-1+'). With U.S. municipal short-term demand debt, note rating symbols are used with the short-term issue credit rating symbols (for example, 'SP-1+/A-1+').

The ratings and other credit related opinions of Standard & Poor's and its affiliates are statements of opinion as of the date they are expressed and not statements of fact or recommendations to purchase, hold, or sell any securities or make any investment decisions. Standard & Poor's assumes no obligation to update any information following publication. Users of ratings and credit related opinions should not rely on them in making any investment decision. Standard & Poor's opinions and analyses do not address the suitability of any security. Standard & Poor's Financial Services LLC does not act as a fiduciary or an investment advisor. While Standard & Poor's has obtained information from sources it believes to be reliable, Standard & Poor's does not perform an audit and undertakes no duty of due diligence or independent verification of any information it receives. Ratings and credit related opinions may be changed, suspended, or withdrawn at any time.

Active Qualifiers (Currently applied and/or outstanding)

i

This subscript is used for issues in which the credit factors, terms, or both, that determine the likelihood of receipt of payment of interest are different from the credit factors, terms or both that determine the likelihood of receipt of principal on the obligation. The 'i' subscript indicates that the rating addresses the interest portion of the obligation only. The 'i' subscript will always be used in conjunction with the 'p' subscript, which addresses likelihood of receipt of principal. For example, a rated obligation could be assigned ratings of "AAAp NRI" indicating that the principal portion is rated "AAA" and the interest portion of the obligation is not rated.

L

Ratings qualified with 'L' apply only to amounts invested up to federal deposit insurance limits.

p

This subscript is used for issues in which the credit factors, the terms, or both, that determine the likelihood of receipt of payment of principal are different from the credit factors, terms or both that determine the likelihood of receipt of interest on the obligation. The 'p' subscript indicates that the rating addresses the principal portion of the obligation only. The 'p' subscript will always be used in conjunction with the 'i' subscript, which addresses likelihood of receipt of interest. For example, a rated obligation could be assigned ratings of "AAAp NRI" indicating that the principal portion is rated "AAA" and the interest portion of the obligation is not rated.

pi

Ratings with a 'pi' subscript are based on an analysis of an issuer's published financial information, as well as additional information in the public domain. They do not, however, reflect in-depth meetings with an issuer's management and therefore may be based on less comprehensive information than ratings without a 'pi' subscript. Ratings with a 'pi' subscript are reviewed annually based on a new year's financial statements but may be reviewed on an interim basis if a major event occurs that may affect the issuer's credit quality.

pr

The letters 'pr' indicate that the rating is provisional. A provisional rating assumes the successful completion of the project financed by the debt being rated and indicates that payment of debt service requirements is largely or entirely dependent upon the successful, timely completion of the project. This rating, however, while addressing credit quality subsequent to completion of the project, makes no comment on the likelihood of or the risk of default upon failure of such completion. The investor should exercise his own judgment with respect to such likelihood and risk.

preliminary

Preliminary ratings are assigned to issues, including financial programs, in the following circumstances.

- Preliminary ratings may be assigned to obligations, most commonly structured and project finance issues, pending receipt of final documentation and legal opinions. Assignment of a final rating is conditional on the receipt and approval by Standard & Poor's of appropriate documentation. Changes in the information provided to Standard & Poor's could result in the assignment of a different rating. In addition, Standard & Poor's reserves the right not to issue a final rating.

- Preliminary ratings are assigned to Rule 415 Shelf Registrations. As specific issues, with defined terms, are offered from the master registration, a final rating may be assigned to them in accordance with Standard & Poor's policies. The final rating may differ from the preliminary rating.

t

This symbol indicates termination structures that are designed to honor their contracts to full maturity or, should certain events occur, to terminate and cash settle all their contracts before their final maturity date.

unsolicited

Unsolicited ratings are those credit ratings assigned at the initiative of Standard & Poor's and not at the request of the issuer or its agents.

Inactive Qualifiers (No longer applied or outstanding)

This symbol indicated continuance of the ratings is contingent upon Standard & Poor's receipt of an executed copy of the escrow agreement or closing documentation confirming investments and cash flows. Discontinued use in August 1998.

c

This qualifier was used to provide additional information to investors that the bank may terminate its obligation to purchase tendered bonds if the long-term credit rating of the issuer is below an investment-grade level and/or the issuer's bonds are deemed taxable. Discontinued use in January 2001.

q

A 'q' subscript indicates that the rating is based solely on quantitative analysis of publicly available information. Discontinued use in April 2001.

r

The 'r' modifier was assigned to securities containing extraordinary risks, particularly market risks, that are not covered in the credit rating. The absence of an 'r' modifier should not be taken as an indication that an obligation will not exhibit extraordinary non-credit related risks. Standard & Poor's discontinued the use of the 'r' modifier for most obligations in June 2000 and for the balance of obligations (mainly structured finance transactions) in November 2002.

Local Currency and Foreign Currency Risks

Country risk considerations are a standard part of Standard & Poor's analysis for credit ratings on any issuer or issue. Currency of repayment is a key factor in this analysis. An obligor's capacity to repay foreign currency obligations may be lower than its capacity

to repay obligations in its local currency due to the sovereign government's own relatively lower capacity to repay external versus domestic debt. These sovereign risk considerations are incorporated in the debt ratings assigned to specific issues. Foreign currency issuer ratings are also distinguished from local currency issuer ratings to identify those instances where sovereign risks make them different for the same issuer.

Moody's Credit Rating Definitions

Purpose

The system of rating securities was originated by John Moody in 1909. The purpose of Moody's ratings is to provide investors with a simple system of gradation by which relative creditworthiness of securities may be noted.

Rating Symbols

Gradations of creditworthiness are indicated by rating symbols, with each symbol representing a group in which the credit characteristics are broadly the same. There are nine symbols as shown below, from that used to designate least credit risk to that denoting greatest credit risk:

Aaa Aa A Baa Ba B Caa Ca C

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa.

Absence of a Rating

Where no rating has been assigned or where a rating has been withdrawn, it may be for reasons unrelated to the creditworthiness of the issue.

Should no rating be assigned, the reason may be one of the following:

1. An application was not received or accepted.
2. The issue or issuer belongs to a group of securities or entities that are not rated as a matter of policy.
3. There is a lack of essential data pertaining to the issue or issuer.
4. The issue was privately placed, in which case the rating is not published in Moody's publications.

Withdrawal may occur if new and material circumstances arise, the effects of which preclude satisfactory analysis; if there is no longer available reasonable up-to-date data to permit a judgment to be formed; if a bond is called for redemption; or for other reasons.

Changes in Rating

The credit quality of most issuers and their obligations is not fixed and steady over a period of time but tends to undergo change. For this reason, changes in ratings occur so as to reflect variations in the intrinsic relative position of issuers and their obligations.

A change in rating may thus occur at any time in the case of an individual issue. Such rating change should serve notice that Moody's observes some alteration in creditworthiness, or that the previous rating did not fully reflect the quality of the bond as now seen. While because of their very nature, changes are to be expected more frequently among bonds of lower ratings than among bonds of higher ratings. Nevertheless, the user of bond ratings should keep close and constant check on all ratings — both high and low — to be able to note promptly any signs of change in status that may occur.

Limitations to Uses of Ratings*

Obligations carrying the same rating are not claimed to be of absolutely equal credit quality. In a broad sense, they are alike in position, but since there are a limited number of rating classes used in grading thousands of bonds, the symbols cannot reflect the same shadings of risk which actually exist.

As ratings are designed exclusively for the purpose of grading obligations according to their credit quality, they should not be used alone as a basis for investment operations. For example, they have no value in forecasting the direction of future trends of market price. Market price movements in bonds are influenced not only by the credit quality of individual issues but also by changes in money rates and general economic trends, as well as by the length of maturity, etc. During its life even the highest rated bond may have wide price movements, while its high rating status remains unchanged.

The matter of market price has no bearing whatsoever on the determination of ratings, which are not to be construed as recommendations with respect to "attractiveness". The attractiveness of a given bond may depend on its yield, its maturity date or other factors for which the investor may search, as well as on its credit quality, the only characteristic to which the rating refers.

Since ratings involve judgments about the future, on the one hand, and since they are used by investors as a means of protection, on the other, the effort is made when assigning ratings to look at "worst" possibilities in the "visible" future, rather than solely at the past record and the status of the present. Therefore, investors using the rating should not expect to find in them a reflection of statistical factors alone, since they are an appraisal of long-term risks, including the recognition of many non-statistical factors.

Though ratings may be used by the banking authorities to classify bonds in their bank examination procedure, Moody's ratings are not made with these bank regulations in mind. Moody's Investors Service's own judgment as to the desirability or non-desirability of a bond for bank investment purposes is not indicated by Moody's ratings.

Moody's ratings represent the opinion of Moody's Investors Service as to the relative creditworthiness of securities. As such, they should be used in conjunction with the descriptions and statistics appearing in Moody's publications. Reference should be made to these statements for information regarding the issuer. Moody's ratings are not commercial credit ratings. In no case is default or receivership to be imputed unless expressly stated.

*As set forth more fully on the copyright, credit ratings are, and must be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities. Each rating or other opinion must be weighed solely as one factor in any investment decision made by or on behalf of any user of the information, and each such user must accordingly make its own study and evaluation of each security and of each issuer and guarantor of, and each provider of credit support for, each security that it may consider purchasing, selling or holding.

Short-Term Ratings

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Note: Canadian issuers rated P-1 or P-2 have their short-term ratings enhanced by the senior-most long-term rating of the issuer, its guarantor or support-provider.

Short-term vs. Long-term Ratings

Long Term	Short Term
Investment Grade Aaa Aa1 Aa2 Aa3 A1 A2 A3 Baa1 Baa2 Baa3	Prime-1 Prime-2 Prime-3
Speculative Grade Ba1 Ba2 Ba3 B1 B2 B3 Caa1 Caa2 Caa3 Ca C	Not Prime

Fitch's National Credit Ratings

For those countries in which foreign and local currency sovereign ratings are below 'AAA', and where there is demand for such ratings, Fitch Ratings will provide National Ratings. It is important to note that each National Rating scale is unique and is defined to serve the needs of the local market in question.

The National Rating scale provides a relative measure of creditworthiness for rated entities only within the country concerned. Under this rating scale, a 'AAA' Long-Term National Rating will be assigned to the lowest relative risk within that country, which, in most but not all cases, will be the sovereign state.

The National Rating scale merely ranks the degree of perceived risk relative to the lowest default risk in that same country. Like local currency ratings, National Ratings exclude the effects of sovereign and transfer risk and exclude the possibility that investors may be unable to repatriate any due interest and principal repayments. It is not related to the rating scale of any other national market. Comparisons between different national scales or between an individual national scale and the international rating scale are therefore inappropriate and potentially misleading. Consequently, they are identified by the addition of a special identifier for the country concerned, such as 'AAA(arg)' for National Ratings in Argentina.

In certain countries, regulators have established credit rating scales, to be used within their domestic markets, using specific nomenclature. In these countries, the agency's National Short-Term Rating definitions for 'F1+(xxx)', 'F1(xxx)', 'F2(xxx)' and 'F3(xxx)' may be substituted by the regulatory scales, e.g. 'A1+', 'A1', 'A2' and 'A3'. The below definitions thus serve as a template, but users should consult the individual scales for each country listed on the agency's web-site to determine if any additional or alternative category definitions apply.

National Short-Term Credit Ratings

F1(xxx)

Indicates the strongest capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. Under the agency's National Rating scale, this rating is assigned to the lowest default risk relative to others in the same country. Where the liquidity profile is particularly strong, a "+" is added to the assigned rating.

F2(xxx)

Indicates a good capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. However, the margin of safety is not as great as in the case of the higher ratings.

F3(xxx)

Indicates an adequate capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. However, such capacity is more susceptible to near-term adverse changes than for financial commitments in higher rated categories.

B(xxx)

Indicates an uncertain capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. Such capacity is highly susceptible to near-term adverse changes in financial and economic conditions.

C(xxx)

Indicates a highly uncertain capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. Capacity for meeting financial commitments is solely reliant upon a sustained, favorable business and economic environment.

D(xxx)

Indicates actual or imminent payment default.

Notes to Long-Term and Short-Term National Ratings:

The ISO country code suffix is placed in parentheses immediately following the rating letters to indicate the identity of the National market within which the rating applies. For illustrative purposes, (xxx) has been used.

“+” or “-” may be appended to a National Rating to denote relative status within a major rating category. Such suffixes are not added to the ‘AAA(xxx)’ Long-Term National Rating category, to categories below ‘CCC(xxx)’, or to Short-Term National Ratings other than ‘F1(xxx)’.

APPENDIX "B"

Amberwave Partner Research and Management, LLC Proxy Voting Policy

Amberwave, in its role as investment adviser to its Fund Clients, will have the responsibility to vote proxies for portfolio securities held on behalf of its Fund Clients. With respect to accounts over which the Firm performs proxy voting, it maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about the Firm's proxy policies and practices. The Firm's policy and practice includes the responsibility to receive and vote Client proxies where authorized and disclose any potential conflicts of interest as well as making information available to Clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

Amberwave will retain a third party (the "Proxy Service") to facilitate the voting Proxies for the relevant accounts of its Clients according to Amberwave's General Voting Policies detailed below. The Proxy Service will receive an electronic feed of all holdings in Amberwave voting accounts, and trustees and/or Broker-Dealer/Custodians for those accounts have been instructed to deliver all proxy materials that they receive directly to the Proxy Service. The Proxy Service monitors the accounts and their holdings to be sure that all proxies are received for Amberwave Client shares owned. As a result of Amberwave's decision to use the Proxy Service, there is generally no physical handling of proxies by Amberwave personnel.

The Proxy Service posts information regarding that vote on its secure web site. This information includes the upcoming voting deadline.

Amberwave votes all securities based upon the general voting policies detailed below and ultimately all votes are cast on a case-by-case basis, taking into consideration the contractual obligations under the Advisory Agreements or comparable documents, and all other relevant facts and circumstances at the time of the vote.

Senior Management must first make a general determination as to whether any potential conflicts of interest exist. Once any potential conflict is either determined not to exist, or resolved, Senior Management will review the issue and collectively agree as to the appropriate vote. They may make their decision based upon any of the information and/or research available to them, in their discretion.

General Voting Policies.

Amberwave's Proxy Voting Policies are not meant to be exhaustive, nor can they anticipate every potential issue on which shareholders may be asked to vote. Amberwave believes in encouraging corporations to adopt policies that result in long-term value creation for shareholders and for society, including by fostering jobs, security and growth for the United States. Proxy voting is one tool that Amberwave uses to communicate these values to management teams in order to influence corporate behavior for the benefit of all Americans.

In accordance with the above general voting policy, Amberwave will generally adhere to the voting policies below.

Jobs. Amberwave believes economic opportunity is fundamental to improving the lives of all Americans across all American communities. Amberwave therefore votes to support corporate policies that it believes will create additional opportunity in the labor market, including by providing high quality jobs for economically disadvantaged constituencies. Amberwave also votes to oppose policies that it believes are designed to generate corporate profits by substituting American jobs for cheaper foreign labor.

Security. Amberwave believes that the long-term well-being and prosperity of the American people is inextricably linked to the security of the United States. Amberwave therefore votes to support corporate policies that it believes increase the resilience of the United States against exogenous shocks, including pandemics and natural disasters, and against hostile actions from strategic competitors to the United States who seek to use economic and corporate action to weaken the United States. Amberwave also votes to oppose policies that it believes result in corporate collaboration with strategic competitors to the United States in ways that undermine U.S. security.

Growth. Amberwave believes that long-term economic growth underpins the economic and political health of the United States. Amberwave therefore votes to support corporate policies that it believes encourage domestic investment, driving long-term productivity growth with healthy distributional effects for American communities. Amberwave also votes to oppose policies that it believes will undermine U.S. economic competitiveness, including anticompetitive behavior.

Responsibility.

The Co-Founders are responsible for the implementation and monitoring of Amberwave's Proxy Voting Policies and Procedures, including associated practices, disclosures and recordkeeping. The Co-Founders may delegate responsibility for the performance of these activities (provided that he or she maintains records evidencing individuals to whom authority has been delegated) but oversight and ultimate responsibility remain with the Co-Founders.

Procedures.

Amberwave has adopted various procedures to implement the firm's Proxy Voting policy and reviews to monitor and ensure that the firm's policy is observed, implemented properly and amended or updated, as appropriate. The procedures are as follows:

Proxy Voting Guidelines: Amberwave does not permit voting decisions to be influenced in any manner that is contrary to, or dilutive of, the general voting policies set forth above. It is the firm's policy to avoid situations where there is any conflict of interest or perceived conflict of interest affecting voting decisions. Any conflicts of interest, regardless of whether actual or perceived, will be addressed in accordance with these policies and procedures.

It is the general policy of the Firm to vote on all matters presented to security holders in any Proxy, and these policies and procedures have been designed with that in mind. However, Amberwave reserves the right to abstain on any particular vote or otherwise withhold its vote on any matter if, in its judgment, the costs associated with voting such Proxy outweigh the benefits to Clients or if the circumstances make such an abstention or withholding otherwise advisable and in the best interest of our Clients.

While the guidelines included in the procedures are intended to provide a benchmark for voting standards, each vote is ultimately cast on a case-by-case basis, taking into consideration Amberwave's contractual obligations to its Clients and all other relevant facts and circumstances at the time of the vote (such that these guidelines may be overridden to the extent the Firm believes appropriate).

As Amberwave provides investment advisory services to registered, open-end investment companies, it will vote any proxies for the Fund clients in accordance with any applicable investment restrictions of each Fund client.

Conflicts of Interest in Connection with Proxy Voting: The Co-Founders have responsibility to monitor proxy voting decisions for any conflicts of interests, regardless of whether they are actual or perceived. In addition, all Covered Persons are expected to perform their tasks relating to the voting of Proxies in a manner that is aligned with the general voting policies stated above and the interests of Amberwave's Clients. If at any time any Covered Person becomes aware of any potential or actual conflict of interest or perceived conflict of interest regarding the voting policies and procedures described herein or any particular vote on behalf of any Client, he or she should contact Amberwave's CCO. If any Covered Person is pressured or lobbied either from within or outside of the Firm with respect to any particular voting decision, he or she should contact Amberwave's CCO. The CCO will use his or her best judgment to address any such conflict of interest and ensure that it is resolved in the best interest of the Clients.

Record Keeping & Regulatory Reporting: For all proxies voted, Amberwave will retain all records related the manner in which it voted proxies for securities held by its Fund clients. The Co-Founders will be responsible for maintaining all records related to the Firm's proxy voting.

Form N-PX: On an annual basis, following the end of the 12-month period ending June 30, Amberwave will furnish to the administrator of its Fund clients a full record detailing all how the Firm voted all proxies for the prior 12-month period.
